PROFESSIONAL STATEMENT

As a Computer Science graduate with hands-on experience in full-stack development, I specialize in building web applications using modern technologies like React, Node.js, Python, etc. I'm passionate about writing clean code and working in a collaborative environment with others who push me to be a better developer.

EMPLOYMENT HISTORY

Front-End Developer, Leathershield Education

Jan 2025 — Jul 2025

- Built a scalable web application for a client using React, TypeScript, Stripe, and Firebase
- Built the client's inaugural web platform enabling online course promotions and generating a 40% surge in new client inquiries
- Collaborated closely with the client to iterate on features using Agile workflows, ensuring alignment with business goals and user needs.

IT Intern, Cabarrus County Government

Jun 2024 — Aug 2024

- Enhanced web applications UI with software development team with React front-end
- Resolved connectivity issues by collaborating with the networking team on system infrastructure configurations.
- Provided Tier 1 technical support for 150+ employees reducing average resolution time by 25%.

EDUCATION

B.S. Computer Science, East Carolina University

Aug 2021 — May 2025

M.S. Software Engineering, East Carolina University

Jan 2026

PROJECTS

Kwik Health (Health Dashboard)

Built a health dashboard as a web application for a capstone software engineering project using React and Flask

FreshTrack

Built a web app that keeps track of items in a users fridge and pantry using HTML, CSS, JavaScript, Python, and Flask
