# David Jordan

Frontend Engineer

North Carolina, United States - [dmjordan2003@gmail.com](mailto:dmjordan2003@gmail.com) - 704-402-4044

[Portfolio](Portfolio)

Recent Computer Science graduate with relevant experience in frontend development. I specialize in modern technologies like JavaScript, TypeScript, React, NextJS, NodeJS, TailwindCSS, etc. In my young career, I've successfully led two frontend teams in delivering client-focused web applications, blending technical execution with collaborative problem-solving.

## Experience

### Frontend Engineer

Leathershield Education                                                                                    Jan 2025 - May 2025

- Built a scalable web application for a client using **React**, **TypeScript**, TailwindCSS, Stripe, and Firebase
- Built the client's inaugural web platform enabling online course promotions and generating a 12% surge in new client inquiries
- Collaborated closely with the client to iterate on features using Agile workflows, ensuring alignment with business goals and user needs.

### Information Technology Intern

Cabarrus County Government                                                                          June 2024 - Aug 2024

- Assisted in enhancement of county web applications UI with software development team front-end
- Resolved connectivity issues by collaborating with the networking team on system infrastructure configurations.
- Provided Tier 1 technical support for 150+ employees

### Frontend Apprenticeship

East Carolina University                                                                                   Aug 2023 - Jan 2024

- Mentored under Senior Frontend Developer to develop and learn best software engineer practices
- Gained proficiency in technical Frontend skills such as **HTML**, **CSS**, **JavaScript**, BootStrap, and **Python**

## Education

### B.S. Computer Science

East Carolina University                                                                                   Aug 2021 - May 2025

### M.S. Software Engineering

East Carolina University                                                                                   Jan 2026 - Dec 2027

## Skills

JavaScript - TypeScript - React - HTML - CSS - Python - Bootstrap - TailwindCSS
